BASIT KARIM

FULL-STACK DEVELOPER

Karachi, Pakistan | +92 332-0238534 | basit.karimkarim@gmail.com | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full-Stack Developer with experience building responsive web and mobile applications using React, React Native, Vue.js, and Node.js. Skilled in developing and deploying scalable backends with Express, Supabase, SQL, and MongoDB, and in transforming Figma designs into production-ready interfaces with Tailwind CSS and TanStack Query. Experienced with cross-platform mobile app deployment (App Store and Play Store), CI/CD pipelines, AWS deployment, and desktop application development using Python and Node.js.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, PHP

Frontend: React.js, React Native (CLI / Expo), Vue.js, Tailwind CSS, Bootstrap, TanStack Query, HTML5, CSS3

Backend: Node.js, Express, ASP.NET, VB.NET, Laravel, REST APIs

Databases: Supabase, MySQL, SQL Server, MongoDB, NoSQL, Stored Procedures, Database Optimization

Mobile App: Cross-Platform Development (React Native, Flutter/Dart), App Store & Play Store Publishing

DevOps & Cloud: AWS, GitHub CI/CD Pipelines, Hostinger, GoDaddy, Firebase, Railway, cPanel, Heroku

Other: Figma-to-Code Implementation, Cross-Platform Mobile Deployment (App Store / Play Store), Desktop Application Development

WORK EXPERIENCE

Full Stack Developer | Brand Revam *2024 – Present*

- Developed and managed REST APIs using Node.js, Supabase, PHP, and Laravel, handling data operations including fetching from third-party APIs and storing in SQL and MongoDB databases.
- Transformed Figma designs into responsive, interactive user interfaces using React.js, Vue.js, Bootstrap, and Tailwind CSS.
- Developed and deployed full-stack web applications to AWS, Hostinger, GoDaddy, Firebase, Railway, cPanel, and Heroku, using GitHub CI/CD pipelines for automated deployment.
- Built and published a cross-platform mobile application using React Native CLI / Expo to both the App Store and Google Play Store.
- Developed a desktop ERP Monitoring System using Python and Node.js for the backend, with a SQL database.

.NET Intern, SQL Server | Paperless Technology *Jan 2023 – Jan 2024*

- Built dynamic, responsive user interfaces using ASP.NET and VB.NET front-end technologies.
- Optimized SQL Server databases and developed stored procedures to improve query performance and data integrity.

EDUCATION

Bachelor of Computer Science *2022 – Present (8th Semester)*
DHA Suffa University

Intermediate *2020 – 2022*
Government National College

LANGUAGES

English, Urdu
